In accordance with Tennessee's accountability system, designed through the state's waiver from No Child Left Behind, the Tennessee Department of Education annually measures progress of schools and school districts. School districts are measured on their abilities to raise overall achievement and close gaps between groups of students and are designated as Exemplary, In Need of Improvement or In Need of Sub-group Improvement. Information on whether school districts met or missed their goals as well as the goals and results of the system are listed below.

The Tennessee Department of Education also selects Reward, Priority and Focus schools. Click here <http://www.tn.gov/education/data/accountability/index.shtml> for more information on the accountability system and overall lists of districts and schools in different statuses.
